

Mohsin Abbas

Full Stack Developer

mohsinabbas20191@gmail.com | +92 323 7086514

LinkedIn | GitHub | Portfolio

Summary

Dynamic Full Stack Developer specializing in scalable web applications using React.js, Node.js, and NestJS. Proven track record in designing RESTful APIs, securing authentication systems, and building real-time infrastructure. Adept at driving performance improvements (e.g., 25% faster API response times), executing CI/CD workflows, and architecting highly reliable PostgreSQL database schemas capable of handling large user volumes.

Technical Skills

Frontend: React.js, Next.js, Redux Toolkit, Tailwind CSS, TypeScript

Backend: Node.js, NestJS, Express.js, REST APIs, WebSockets

Database & ORM: PostgreSQL, MongoDB, Prisma ORM

Concepts & Infrastructure: JWT, OTP Verification, RBAC, Multi-tenant Architecture, Caching, Git, CI/CD, Vercel, AWS

Experience

Full Stack Developer | *SOFTOO*

Jan 2026 – Present

- Engineered robust backend APIs and dynamic frontend interfaces for **FAB Pakistan** utilizing React.js, Node.js, and Prisma, significantly enhancing system scalability.
- Architected end-to-end full stack features for the **TNA AI SaaS platform**, bridging React.js dashboards with a RAG backend pipeline for precise context-aware LLM responses.
- Designed a robust multi-tenant ecosystem, safeguarding user data across organizational boundaries with strict targeted data isolation protocols.
- Optimized complex PostgreSQL queries and eliminated redundant API calls, successfully reducing overall API response times by an average of 25%.
- Deployed a secure, scalable authentication system utilizing JWT, OTP validation, and Role-Based Access Control (RBAC).
- Streamlined team deployment processes by developing automated CI/CD pipelines via GitHub Actions and hosting reliably on Vercel.
- Built high-performance real-time features leveraging WebSockets to handle instantaneous frontend notifications and backend live system updates.

Full Stack Developer Intern | *SOFTOO*

Oct 2025 – Dec 2025

- Rapidly built and integrated 15+ interactive React.js modules with RESTful services, delivering seamless client-server communication.
- Authored and tested efficient Node.js and Express.js backend endpoints to power vital internal company solutions.
- Diagnosed and resolved critical software defects, directly boosting application stability and user-facing performance metrics.

Web Developer Intern | *Cosmic365.AI*

May 2025 – Oct 2025

- Delivered dynamic client websites utilizing Wix Studio, strictly adhering to modern UI/UX design consistencies and web standards.
- Streamlined layout optimizations and integrated content natively, resulting in significantly faster and more engaging web experiences.

Projects

Multi-Tenant SaaS Platform | *React, Node.js, PostgreSQL*

Live | Code

- Architected a full-stack SaaS solution featuring automated authentication and strict cross-tenant PostgreSQL data separation, reliably supporting 10,000+ active users.
- Configured scalable role-based user dashboards tailored to secure organizational-level data access control.

ChatSnap | *React Native, Node.js, WebSockets*

Code

- Built a real-time chat application, establishing stable WebSocket connections for instantaneous, low-latency messaging.
- Engineered comprehensive chat state management mechanisms to ensure flawless message synchronization across separate client sessions.

Jewelry E-commerce Platform | *React, Node.js, PostgreSQL*

Live | Code

- Developed a scalable e-commerce platform equipped with secure shopping carts, robust order processing, and a highly responsive UI.
- Integrated an administrative dashboard and optimized PostgreSQL database structures to handle thousands of concurrent commercial transactions.

Education & Certifications

Minhaj University Lahore — Bachelor of Computer Science (GPA: 3.43/4.0)

2020 – 2024

Certifications: React JS Complete Course (Udemy) – Node.js, GraphQL & REST API (Udemy) – AWS Cloud Practitioner (Udemy)
